

Pre-Approval Tool — Sample Applications

Ten **completed sample application forms** are provided as individual PDFs in the folder **Sample Application Forms (filled)**. Each one is a populated version of a real AGENCY pre-approval form, so a candidate's tool can be run end-to-end on a realistic input.

- **Participants are fictional** (no real personal/health information).
- **Provider websites and product links are real and public**, so the website-verification step has genuine evidence to find. If a provider changes their site, swap in a current URL — the form structure stays the same.
- A candidate needs to demonstrate the workflow on **at least three** of these (more is welcome).

#	File	Form type	Provider / item	Link on the form

10	Sample 10 — Appeal (Gracie Barra Jiu Jitsu)	Appeal	Appeal of Sample 2's denial	graciebarra.com

All seven form types are represented. The set is deliberately varied — some providers publish everything openly, some don't, one item should be caught as excluded, and one is an appeal — but the expected results are intentionally left out of this candidate-facing sheet (they live in the separate reviewer key).
